REMARKS

The Maple Point School was taught by Miss Katherine Healy, a graduate of the Pembroke High School, and an attendant of the Farmington Normal School two years. The scholars under Miss Healey have made extra progress, and I would say that I recommend Miss Healey as a good and efficient teacher and our next Superintendent would do well to engage her for the Spring term. She has taught the school year.

Number registered Spring Term	10.	Average	9
" " Fall	"	11.	Average 8
" " Winter	"	11.	Average 10

The Ridge School: The Spring and Fall terms were taught by Miss Susie Brown, a graduate of the Red Beach High School. Miss Brown has had some experience previously in teaching, and although some of the parents were inclined to find fault, yet in my opinion the scholars made no deterioration in their progress. The Winter term was taught by Mr. Parmeter, who has had sixty-seven terms of experience in teaching school. I would say that, in conjunction with the parents of the scholars, I feel very much encouraged with this teacher's work.

" " Fall	"	15.	" 7
" " Winter	"	18.	" 16

The South Robbinson School was taught by Miss Evaeth Hume, who is a graduate of the Farmington Normal school, which needs no further comment., As to ability as a teacher I cannot speak too highly of Miss Hume's work.

The Spring and Fall terms of the Village school were taught by Miss Edna McArthur, who has taught some terms previously in our town and has given general satisfaction. The Winter term was commenced by Miss Edith Gerry, who owing to ill health was obliged to relinquish at the end of the second week. Mr. Arthur Cook was procured to fill the vacancy and taught the school during the next seven weeks following, and finished. So that I deemed it unwise to procure a teacher for the remaining two weeks. The teachers gave good satisfaction, and I was very sorry and disappointed that Miss Gerry was unable to finish the term.

" "	Fall	33	"	27
" "	Winter	33	"	28

Miss Elder taught the spring term successfully, at the West District School. The Fall and Winter terms was taught by Miss Clarke of Perry, who attended the Farmington Normal School during two years and who has had previous experience in teaching, Miss Clarke has done good work at the school and deserves a well earned recommendation to our next Superintendent.

Number registered	Spring term	19	average	13
" "	Fall	11	"	8
" "	Winter	13	"	10

The North District School was taught by Miss Rhoda Carter, who did very good work during the first two terms, but owing to the extra number of scholars during the winter term became discouraged. She having a number of extra scholars, who had been attending the Red Beach School. Miss Carter was an attendant at the Gorham Normal School during four terms.

Report of the Superintendent of Schools

of the Town of Robbinston, for the year
ending, March 31, 1913.

FELLOW CITIZENS:—I hereby submit the following Annual Report for the Schools. The same Report covers both the year of service of Miss Edith J. Gerry, who resigned because of contemplated absence from town, as well as for the Winter Term, during which I completed her term of appointment.

As regards financial conditions, I refer you to the fuller statement elsewhere recorded. I give here only such facts as deserve special attention. For comparison:

	Appropriations	Expenditures
For Common Schools,	\$1,995 08	\$2,029 80
Text Books,	100 00	98 89
Tuition,	250 00	293 96

These accounts were over-run largely because of exceptionally reduced appropriations the preceding year, and thus some accounts ran over onto this year. The Common Schools account was over-run partly for said reason, and partly because I was not aware of a cut in this year's appropriation. In the expenditures for text books \$29, and for tuition \$40, are liabilities from the preceding year.

As regards buildings, much might be done to make them more wholesome and sanitary. Some of the teachers, through their own personal efforts, by means of school enter-

tainments, have raised the means for providing some needed maps, etc.

The schools in all districts were kept for 34 weeks, save for the Village school, which lost eight weeks, because of diphtheria. The policy recommended by the State authorities, of rigid quarantine, thorough fumigation, and as regular sessions of the school, as necessary precautions would permit, finally proved to be the better policy, under such trying circumstances.

Because of exposure to infection it was necessary that a number of text books be destroyed. All text books, as fast as practicable, are being repaired, labeled, numbered and inventoried. All books beyond usefulness are destroyed and others, save those in use are kept in reserve, apart from the school rooms. In making next year's appropriation for text books, provision should be made for this necessary shrinkage. For similar reasons, common pails and dippers as fast as practicable, are being replaced by stone water coolers and individual cups.

The following table of school attendance deserves special notice:

	Registered	Av. Attendance
North District,	26	23
Village,	33	23
West District,	14	11
Mill Cove,	29	25
Ridge,	21	17
Maple Point,	11	9
	<hr/>	<hr/>
	134	108

According to the April, 1912 census, there are 185 children between five and fifteen years, inclusive. An average attendance of only 108 out of 185, is a very deplorable record

village school is mainly responsible. Out of 58, only 23 are registered, and the average attendance was only 23. I'll return to this later. There is one encouraging feature in the fact, that notwithstanding the disadvantages of distance out of town, 12 scholars are attending High school. As for consideration of teachers, we now come to the heart of the whole matter. The success or failure of those pupils who attend with any degree or regularity, depends after all, not so greatly upon the teachers. Therefore, the endeavor should ever be to engage those teachers, who take up the work as something more than a means of livelihood. The endeavor should be to engage those of inspiration and mental vigor, who have a facility of inspiring self-confidence and kindling a zeal for learning in the pupils, and who take a genuine delight in the development and expansion of young minds. These servitors, so vital to the enlightenment and progress of our community life and social standing, should receive the sympathy and hearty co-operation of not only the parents immediately concerned, but the community as a whole. Some of the teachers (a full list of them is given elsewhere in the Town Report) have labored faithfully, but under the disadvantages of one kind or another, and so are deserving of credit. It is a well deserved and fitting tribute to the twelve scholars attending High school are from the Cove and North Districts; a tribute on the one hand to the teachers for their earnest and capable service, and on the other to the sympathy and support of the people of those districts, that makes possible a continued and constructive service. May like conditions be extended in all the School Districts. Contributory to that end a proposition will be presented at the Town meeting, for the purpose of avoiding the usual interruptions, changes and delays between the term and Spring terms.

I urge that all the schools, as far as possible, be graded. The accomplishment of such purpose will add greatly to the efficiency, and bring them up in line with other schools throughout the State.

There are two matters, concerning which, I feel to speak most earnestly, as by virtue of my office, they weigh heavily upon me. Not that they are the only matters that press for consideration; but all cannot be attended to at once, and these seem to be the most important and urgent. I refer in the first instance to truancy, and in the second to the inadequacy of the Village school. As regards truancy, I called attention to the fact that out of 58 children in the village, only 33 are registered, and the average attendance was only 23. That means that truancy is much the predominant feature in the Village school. Other districts are affected in some measure, but the root of the difficulty lies here. There are families with a number of children in which no pretense of school attendance is made, and in several others, only the merest pretense. It is a gross crime that a boy grows to be 15 years in this day, and in a civilized community, and he not be able to read and write. It is not one whit less heinous a crime to stunt their mental and moral possibilities, than it would be to brutally cleave off a hand, a foot, or one or more limbs. It is a heinous crime to deprive them of the possibilities of a worthy and noble manhood or womanhood, or even to deprive them of an equal chance to earn a livelihood.

Better twice over that they never be born, than that they be reduced to the serfdom of mere bread earners, without chance for any of the finer human traits and pursuits. What use is it to try to teach respect for the flag and inspire patriotic instincts, when in the homes and industries the truancy laws, our civil safeguards, which permit those

ducts to have any consistency, are ruthlessly and lawless-
 ramped under foot. The tendency of such is to make
 men double-minded and dissemblers, and to start them on
 a way to become traitors of their countries welfare. Vain
 is, under such conditions, to hope, as we sometimes fond-
 ly do, that some one of our boys, shall attain to the high
 office of the Presidency of these United States, or some other
 office of trust and responsibility; one who would reflect
 honor upon his native village, and of whom we could feel
 justly proud. But, my friends, before one can worthily
 dedicate themselves to the service of the nation, one must
 first learn to serve the welfare of the little community in which
 they live. Before one can administer grave affairs of state,
 one must learn to be industrious the year around, Winter
 as well as Summer. Before one can inspire confidence and
 respect in a nation, they must pass the primary, and learn respect
 and sacred regard for others. My fellow citizens, the future
 care and hope of this Town of Robbinston, is wrapped up
 in the lives and possibilities of our boys and girls. Can we
 afford to do less than give them an equal chance with the
 boys and girls of other towns and cities? Good intentions
 will not suffice. Nothing less than the active co-operation
 of all, can suffice. Lest anyone should chance to remain
 ignorant, provision should unfailingly be made for such emer-
 gency, when it comes to the election of truant officer.
 As previously stated, there are 58 children in this village,
 in our government endows with the right, and of right
 should have the privilege of school. It is a physical impos-
 sibility for one teacher to do justice to such a number. The
 one room School building is in need of extensive repairs to
 make it a safe place for these children. For these reasons
 the demand for a two room building and two teachers, is
 imperative. It is an economy when making an appropria-

tion, to so provide for its expenditure, that the work need
 not soon be undone, but rather have lasting value. Nothing
 short of a two room building will meet the need. When
 this need has been met, and the school properly graded, a
 firm and substantial basis will have been made toward the
 proposal made last year as regards a High School course.
 In the future the first year of a High School course could be
 taught in one of the rooms with the upper grades, and so no
 additional expense, save a raise in one of the teacher's sal-
 ary, which would be largely, if not quite, met by a saving in
 tuition. At any rate, nothing less than a two room build-
 ing and two teachers can with any show of justice cope with
 the existing needs. The trust and responsibility resting
 upon us for these young lives, is too sacred to either be
 treated lightly, or to admit of any selfish tampering. The
 duty is ours and with a little enterprise we can meet it if we
 will.

I thank you for the honor that you have conferred upon
 me in this brief appointment, and also the members of the
 School Committee for their co-operation in the work.

Respectfully submitted,

JAMES I. MERRITT, Supt. of Schools.

My Country 'tis of Thee,
Sweet land of Liberty,
Of Thee I sing;
Land where my fathers died,
Land of the Pilgrim's pride,
From every mountainside,
Let Freedom ring.

Our Father's God, to thee,
Author of Liberty,
To Thee we sing;
Long may our land be bright
With Freedom's holy light;
Protect us by Thy might,
Great God, our King.

Afternoon Service -- 4 o'clock

Invocation Rev. Frank Williamson
Raising of Colors Calais American Legion
Litany of Dedication Mr. Everett I. Campbell

Minister: To the glory of God by whose gracious power our fathers won their liberty and unity of old, and brought forth a new nation based upon the dignity and worth of human beings, with freedom and justice for all.

People: We dedicate this Memorial.

Minister: To the spirit of our country, its heroic heritage, where many races are learning to live without rancour, many faiths without feud, seeking to build a beloved community where all may share a fuller life. To the memory of all valiant spirits who in all ages have loved truth, justice and liberty more than life.

People: We dedicate this Memorial.

Minister: To the honour of these men and women, whose names are inscribed in the imperishable bronze of the memorial, who were willing to give their lives if necessary that liberty, justice and mercy should not vanish from the earth in brutal tyranny; to their loyalty, steadfastness, patriotic spirit, and courageous devotion to duty; to the memory of those who have given their last full measure of devotion and have laid down their lives that our nation might live.

People: We dedicate this Memorial.

Minister: To the quiet courage, devotion and sacrifice of fathers, mothers, wives and friends who shared these men and women with their country in its hour of need.

People: We dedicate this Memorial.

Minister: To the mercy of God, who has shown His Spirit in the healing life of Jesus Christ, His Son, our Saviour; invoking His Grace upon our wounded humanity, its blind confusion, its broken brotherhood; beseeching His renewing Power.

People: We dedicate this Memorial
